

A detailed map of a residential area. The map features several distinct zones: a large red-shaded area in the center and upper right, a green-shaded area in the lower left, and a blue-shaded area in the lower right. Black shapes represent individual buildings, with a high concentration in the red-shaded area. A network of roads, shown as thin grey lines, crisscrosses the map. A prominent road runs diagonally from the top left towards the center. Another road runs horizontally across the middle. A third road runs vertically on the right side. The map also shows some smaller, irregularly shaped areas in white, possibly representing undeveloped land or water bodies. The overall layout suggests a planned urban environment with designated zones for different types of development.
